Maths 1S

Soit \vec{u} , \vec{v} , \vec{w} , \vec{r} et \vec{t} des vecteurs non nuls.
Compléter.

1 $(\vec{u}, \vec{v}) + (\vec{v}, \vec{w}) = \dots$

2 $(\dots, \vec{w}) + (\dots, \vec{t}) = (\vec{v}, \vec{t})$

3 $(\vec{t}, \vec{w}) + (\dots, \vec{t}) = (\vec{v}, \vec{w})$

1 $(\vec{u}, \vec{v}) + (\vec{v}, \vec{w}) = \dots$

1 $(\vec{u}, \vec{v}) + (\vec{v}, \vec{w}) = \dots$

$(\vec{u}, \vec{v}) + (\vec{v}, \vec{w}) = (\vec{u}, \vec{w})$ d'après la relation de Chasles

$$2 \quad (\dots, \vec{w}) + (\dots, \vec{t}) = (\vec{v}, \vec{t})$$

2 $(\dots, \vec{w}) + (\dots, \vec{t}) = (\vec{v}, \vec{t})$
 $(\vec{v}, \vec{w}) + (\vec{w}, \vec{t}) = (\vec{v}, \vec{t})$ d'après la relation de Chasles

$$3 \quad (\vec{t}, \vec{w}) + (\dots, \vec{t}) = (\vec{v}, \vec{w})$$

$$\begin{aligned} \text{3 } (\vec{t}, \vec{w}) + (\dots, \vec{t}) &= (\vec{v}, \vec{w}) \\ (\vec{t}, \vec{w}) + (\dots, \vec{t}) &= (\vec{v}, \vec{w}) \Leftrightarrow (\dots, \vec{t}) + (\vec{t}, \vec{w}) = (\vec{v}, \vec{w}) \end{aligned}$$

$$\begin{aligned} 3 \quad (\vec{t}, \vec{w}) + (\dots, \vec{t}) &= (\vec{v}, \vec{w}) \\ (\vec{t}, \vec{w}) + (\dots, \vec{t}) &= (\vec{v}, \vec{w}) \Leftrightarrow (\dots, \vec{t}) + (\vec{t}, \vec{w}) = (\vec{v}, \vec{w}) \\ (\vec{v}, \vec{t}) + (\vec{t}, \vec{w}) &= (\vec{v}, \vec{w}) \end{aligned}$$
